All school-age child care centers must comply with the “General Rules for Child Care Facilities” as well as the “Rules Regulating School-Age Child Care Centers” and the “Rules and Regulations Governing the Sanitation of Child Care Centers in the State of Colorado.”

7.712.1 (None) [Rev. eff. 6/1/12]

7.712.2 DEFINITIONS [Rev. eff. 6/1/07]

- A. A “school-age child care center” (hereafter referred to as the “center”) is a child care center that provides care for five (5) or more children who are between five (5) and sixteen (16) years of age. The center’s purpose is to provide child care and/or an outdoor recreational experience using a natural environment. The center operates for more than one week during the year. The term includes facilities commonly known as “day camps”, “summer camps”, “summer playground programs”, “before and after school programs”, and “extended day programs”. This includes centers operated with or without compensation for such care, and with or without stated educational purposes.
- B. A “building-based school-age child care program” is a child care program that provides care for five (5) or more children who are between five (5) and sixteen (16) years of age. The center is located in a building that is regularly used for the care of children.
- C. A “day camp” is a school-age child care program which operates at least four (4) hours a day primarily during one season of the year, and during school vacation periods for children between five (5) and eighteen (18) years of age, which accepts registrations for finite, not necessarily contiguous sessions. Programs may operate daily between 6:00 a.m. and 10:00 p.m. Day camp programs may incidentally offer not more than two overnight stays each camp session. The day camp provides a creative recreational and educational opportunity through group oriented programs. The day camp utilizes trained leadership and the resources of the natural surroundings to contribute to each child’s mental, physical, social, and personal growth.

The types of day camps are as follows:

- 1. A “building based day camp” is a child care program that provides care for five (5) or more children who are between five and eighteen years of age. The day camp is located in a building which, along with the outdoor surroundings, is regularly used by the program.
- 2. A “mobile day camp” is a child care program that provides programming for five (5) or more children who are at least seven (7) years of age or who have completed the first grade. Children move from one site to another by means of transportation provided by the governing body of the program. The program uses no permanent building on a regular basis. Mobile day camp programs may operate in multiple sites under one license.
- 3. An “outdoor-based day camp” is a child care program that provides care for five (5) or more children who are at least seven (7) years of age or have completed the first grade. The day camp uses no permanent building on a regular basis and provides programming in a permanent outdoor or park setting.
